

Apostles Lutheran Preschool

October 4 - 6, 2011

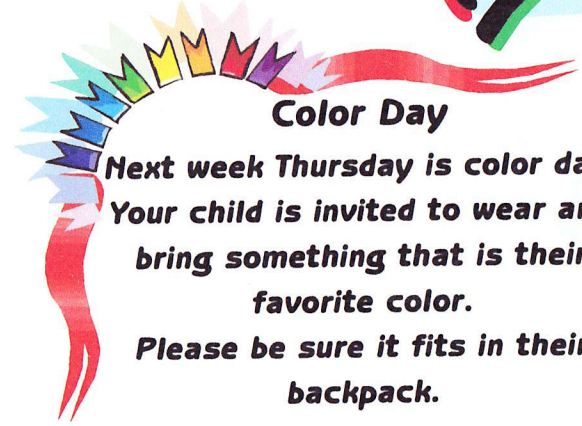

Back to School ABCs

The first week of Fall and we begin our lessons with apples. We learned that apples grow on a tree, they come in different colors, they all have seeds and they all taste different. We tried red, yellow, green and red/yellow apples. We voted to see which one the class liked best. We had three different apple math games, apples and apples trees to paint, we patterned with apples and read apple books. We finished with Apple Day where we counted, sorted and did relays with our own favorite apple.

The letter of the week was "Aa". We learn that it makes two sounds and how to sign it. We made apple print A's on Wednesday.

Our Bible lesson this week was the story of two brothers Cain and Abel. They were Adam and Eve's sons. Ask your child what Cain grew and what Abel raised. We heard how they each gave offerings or gifts to God. Now ask which brother loved God and gave his best. What did the brother that did not love God do to his brother? Ask what God did then. The Bible treasure - "God is Love."

Color Day

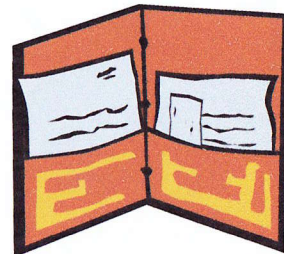

Next week Thursday is color day. Your child is invited to wear and bring something that is their favorite color. Please be sure it fits in their backpack.

Family Magazines

In your child's folder you will find two parenting/family magazines.

Simply Family is our local magazine with a community calendar. Parent Crosslink is from our church synod that has parenting ideas and helps.

Hope you enjoy!

It is that time of year where we can never be sure from one minute to the next what the temperature will be.

PLEASE

send a jacket with your child just in case it decides to cool off.
